# Wish I Was Here

All songs written, produced,  
and performed by Noj  
Recorded in Los Angeles,  
California from  
July 2021 to June 2022

Did you wish upon a star,  
that I would fall apart?  
Or that genie in a bottle,  
did you ask him for my heart?  
And pray to ease your mind,  
'cause I'm always fighting  
against the tide,  
so whatever you did it must of worked

'cause it's all hopeless to a dreamer,  
so why don't we go to sleep,  
and I can't make myself believe,  
so what's the point of all this then

Did you wish upon a star,  
that I would fall apart?  
Or that genie in a bottle,  
did you ask him for my heart?  
pray to ease your mind,  
and try to cloud up mine,  
cuz I'm always fighting against the tide

Wish Upon a Star

Wish Upon a Star

Wish Upon a Star

It is theorized that the universe will keep expanding until everything is infinitely far apart, and there is no energy left for anything to be done.

This will be the Heat Death of the Universe.

When everything has reached its equilibrium, and nothing else can be done.

By this time, if there is still something living, it will have conquered all other challenges, and will have lived a life of billions of years.

It will have perhaps grown arrogant or comfortable in its position, as a being that has truly conquered the universe, and has survived to the ultimate end of the universe.

But then, it will witness the end of the universe.

There will be no energy left.

There will be nothing left but to finally accept the end of it all.

End of eternity,  
please go easy on me,  
because I'm still the world  
and I'm still spinning,  
and what am I 'posed  
to give for more  
time from the beginning

Our final hour has  
got me thinking,  
as the light goes out  
like a setting sun  
We're all gonna die,  
I don't know why  
I tried to be different

### Floating into the Corner

But nothing loved the vices quite  
like me, so who am I to judge,  
kill a man for reposts and  
spend his bones on clothes,  
Didn't you hear? I wished upon your star  
that brought me here,  
but that's not far enough

I'm tired of acting like anyone cares,  
pretend that you're there,  
I wish I was here, but

I really am tired of acting like anyone cares.  
I'm tired of this act that everyone must play.  
This constant game of lying to eachothers' faces,  
saying "I'm so good, this is so great". This facade  
that everyone puts up, even though it's so clearly  
fake looking, and everyone knows eachothers'  
facade must be as fake as their own. Yet we keep  
building up further. I'm tired of the dramatic  
videos on Instagram, the slowed down music and  
the emotional voice over—"everything is about to  
change", "this is the one", "this is really different".  
No one gives a shit about anyone. It's an open  
secret that we all seek to avoid. This is a constant  
game of pretending to care. Everyone will size you  
up to see what of value they can extract from you,  
and when you aren't of value to them,  
they will move on.

It's been a long year,  
straight out, out of the blue,  
It's been a long year,  
without much to show,  
except fear,  
fear this could be your last show,  
then I'm so woefully fucked

Triple six for your benefit,  
I'll become a machine to be competitive,  
scrolling all that time they call it sedative,  
another month I'd better off forget,  
That's why I don't remember shit,  
time's a member's only club, isn't it?

remember time went in,  
just to keep you cognizant,  
food, drugs, my gilded age opulence,  
because pleasure is better than the opposite,

I stay on top of it,  
scars stop confidence,  
addiction seemed promising,  
'cause life too improvident,  
we over the occupance, and bitch,  
now I live with the consequence,  
city's flooding and I live by the river  
time's drying out, only sand left for the winners,

I could try it out and let's see if I deliver,  
I don't even deserve it, I'll be with the sinners,

It's Been a Long Year

It's Been a Long Year

Can we please forget,  
every single thing that I said?  
Back in high school,  
I don't even think I liked you,  
I was just tripping about,  
all the things you supposed to do,  
and you blame me  
but I will never blame you,  
and now you hate me  
even in the real life,  
and I love it,  
I don't ever feel right,  
You had me falling,  
You had me all into the fight,

Staying up all night,  
knowing our old news (how could I forget?)  
I told you my whole life (didn't I?)  
and I don't even know you  
You were thinking all  
every embarrassing thing I said  
I was thinking about,  
trying to get my shit out of the red

Laughing at the Right Time  
sending green texts on your phone  
that you left on read,  
every meme thing I said to flex  
I ain't mean to brag,  
Can we just forget for me  
every single thing I said, I worry  
it is the end, I'm sorry  
in my head,  
and I bet I'm a nuisance,  
kicked out the group chat,  
I can't even get mad at that,  
but why you gotta go and get  
the lie on that?

Are we enough to save or not?  
Are we just walking toward the sun?  
I never loved anyone,  
'cause no one else was enough,  
I never said it was your fault,

This must be hell I'm living in,  
because all I think about  
is the things we did,  
All that money, thinking I'd be better off,  
sorry Ma, it's worse than you even thought,

Feel like everything's fucked

**This Must Be Hell**

Turn on my TV,  
hate whenever y'all see me  
hate how I have to act,  
hold up, I meant to brag,  
'hold up, I'm in my bag',  
hold up, this life is fast,  
rain on my cheek but the feeling don't last,  
I feel dirty,  
Fucking up for my 30-for-30,  
please believe me, don't worry,  
all my life they told me I would want it,  
dreaming of picket fences and the bonnets  
you tapped in,  
but if you don't remember the dream  
it never even happened,  
backed in the corner so of course I've been acting,  
pats on the shoulder for the people I've hurt,  
Last year was a blur,  
or it might be a parked life,  
consequences of a modern life,  
of if the car moving, Yusuf taking a hard right,  
nothing happens to those lacking inception,  
try out emotions like Carly Rae Jepsen,  
trying out potions and hoping they'll cure me,  
maybe this time I'll learn my lesson,

## Shame

I'm just a man now what did you expect?  
I didn't enjoy it, I just need my fix,  
mix it with each high see if I feel it,  
I'm in that bitch now see if I feel it,  
I could part-time and still hit the ceiling,  
too many leaks in your camp you need sealant,  
I'm making movies I still had 'em reeling,  
think I give a shit what the old frauds feeling?  
You gotta hand it if I win with you dealing,  
I felt ashamed,  
if I'm clean by next week though make no mistake,  
I'm coming back breaking shit from the snakes,  
the snakes will be driven out of Ireland,  
the snakes will be driven out,  
the snakes will be driven out

Hold up I'm mean, never say what I mean,  
fiend for the belief in something more  
the more I think I found the cracks in between,  
fell in love in a dream, never score since,  
having it like some bitch you can't respect

The games we play  
aren't the same inside,  
they're not afraid  
of the same old advice,  
So why is your light still on, still on,  
now, how could you be that selfish?

I never go out if I'm honest,  
I live with no stream of conscious,  
I live in enclosing boxes,  
isn't that what you always wanted,  
so tell me now,  
why is your light still on? Still on,  
now, how could you be that selfish?

# You Decide

You decide, you decide,  
then you'll let me know,  
I don't care, I don't care,  
how's it gonna go,  
outside in and it never gonna work,  
I don't know why but I  
always assume the worse  
No way, no way,  
No way out,  
No way, no way,  
no way out now,  
Yeah, every friend I ever had, I threw 'em down,  
must be too many lines, guys over here  
I ain't never coming out. I'm like Dirty Diana.  
Loved too many then dashed right after the dine,  
yeah I crashed it up Panorama,  
I fucked up the sides,  
Why they ask me if it was suicide?  
My mind swerving nightly,  
I ain't your Keira Knightley  
You ain't even that Will,  
I'm in that Akira lightbeam,  
losing my arm, and deering in light,  
is it the norm, to lose what I was?

Listen, I don't think you know just how my life's been,  
I don't think you know just how my planet spins,  
assuming worst things,  
out of the pan and in the fire,  
surrounded by nothing but liars,  
they try to bring to hell, and I'm back through the wire,  
every time she's home they don't invite her,  
I try to make my problems lighter  
and hang my head instead of myself,  
Shot down, not by enemies but on the inside,  
Item forty-five life, like I could ignore you,  
I done it too many for you,  
Listen, you know I don't know the games you play,  
and learning the rules wouldn't play the same,  
I never knew, the conversations on the brain,  
what I need to do, what I need to do for fame,  
Why'd you weaponize, oh/our mental illness,  
why'd you give it up, oh for your children,  
that you never knew, you never knew, you never knew,  
Shot down, not by enemies but on the inside,  
Item forty-five life, like I could ignore you,  
I done it too many for you,

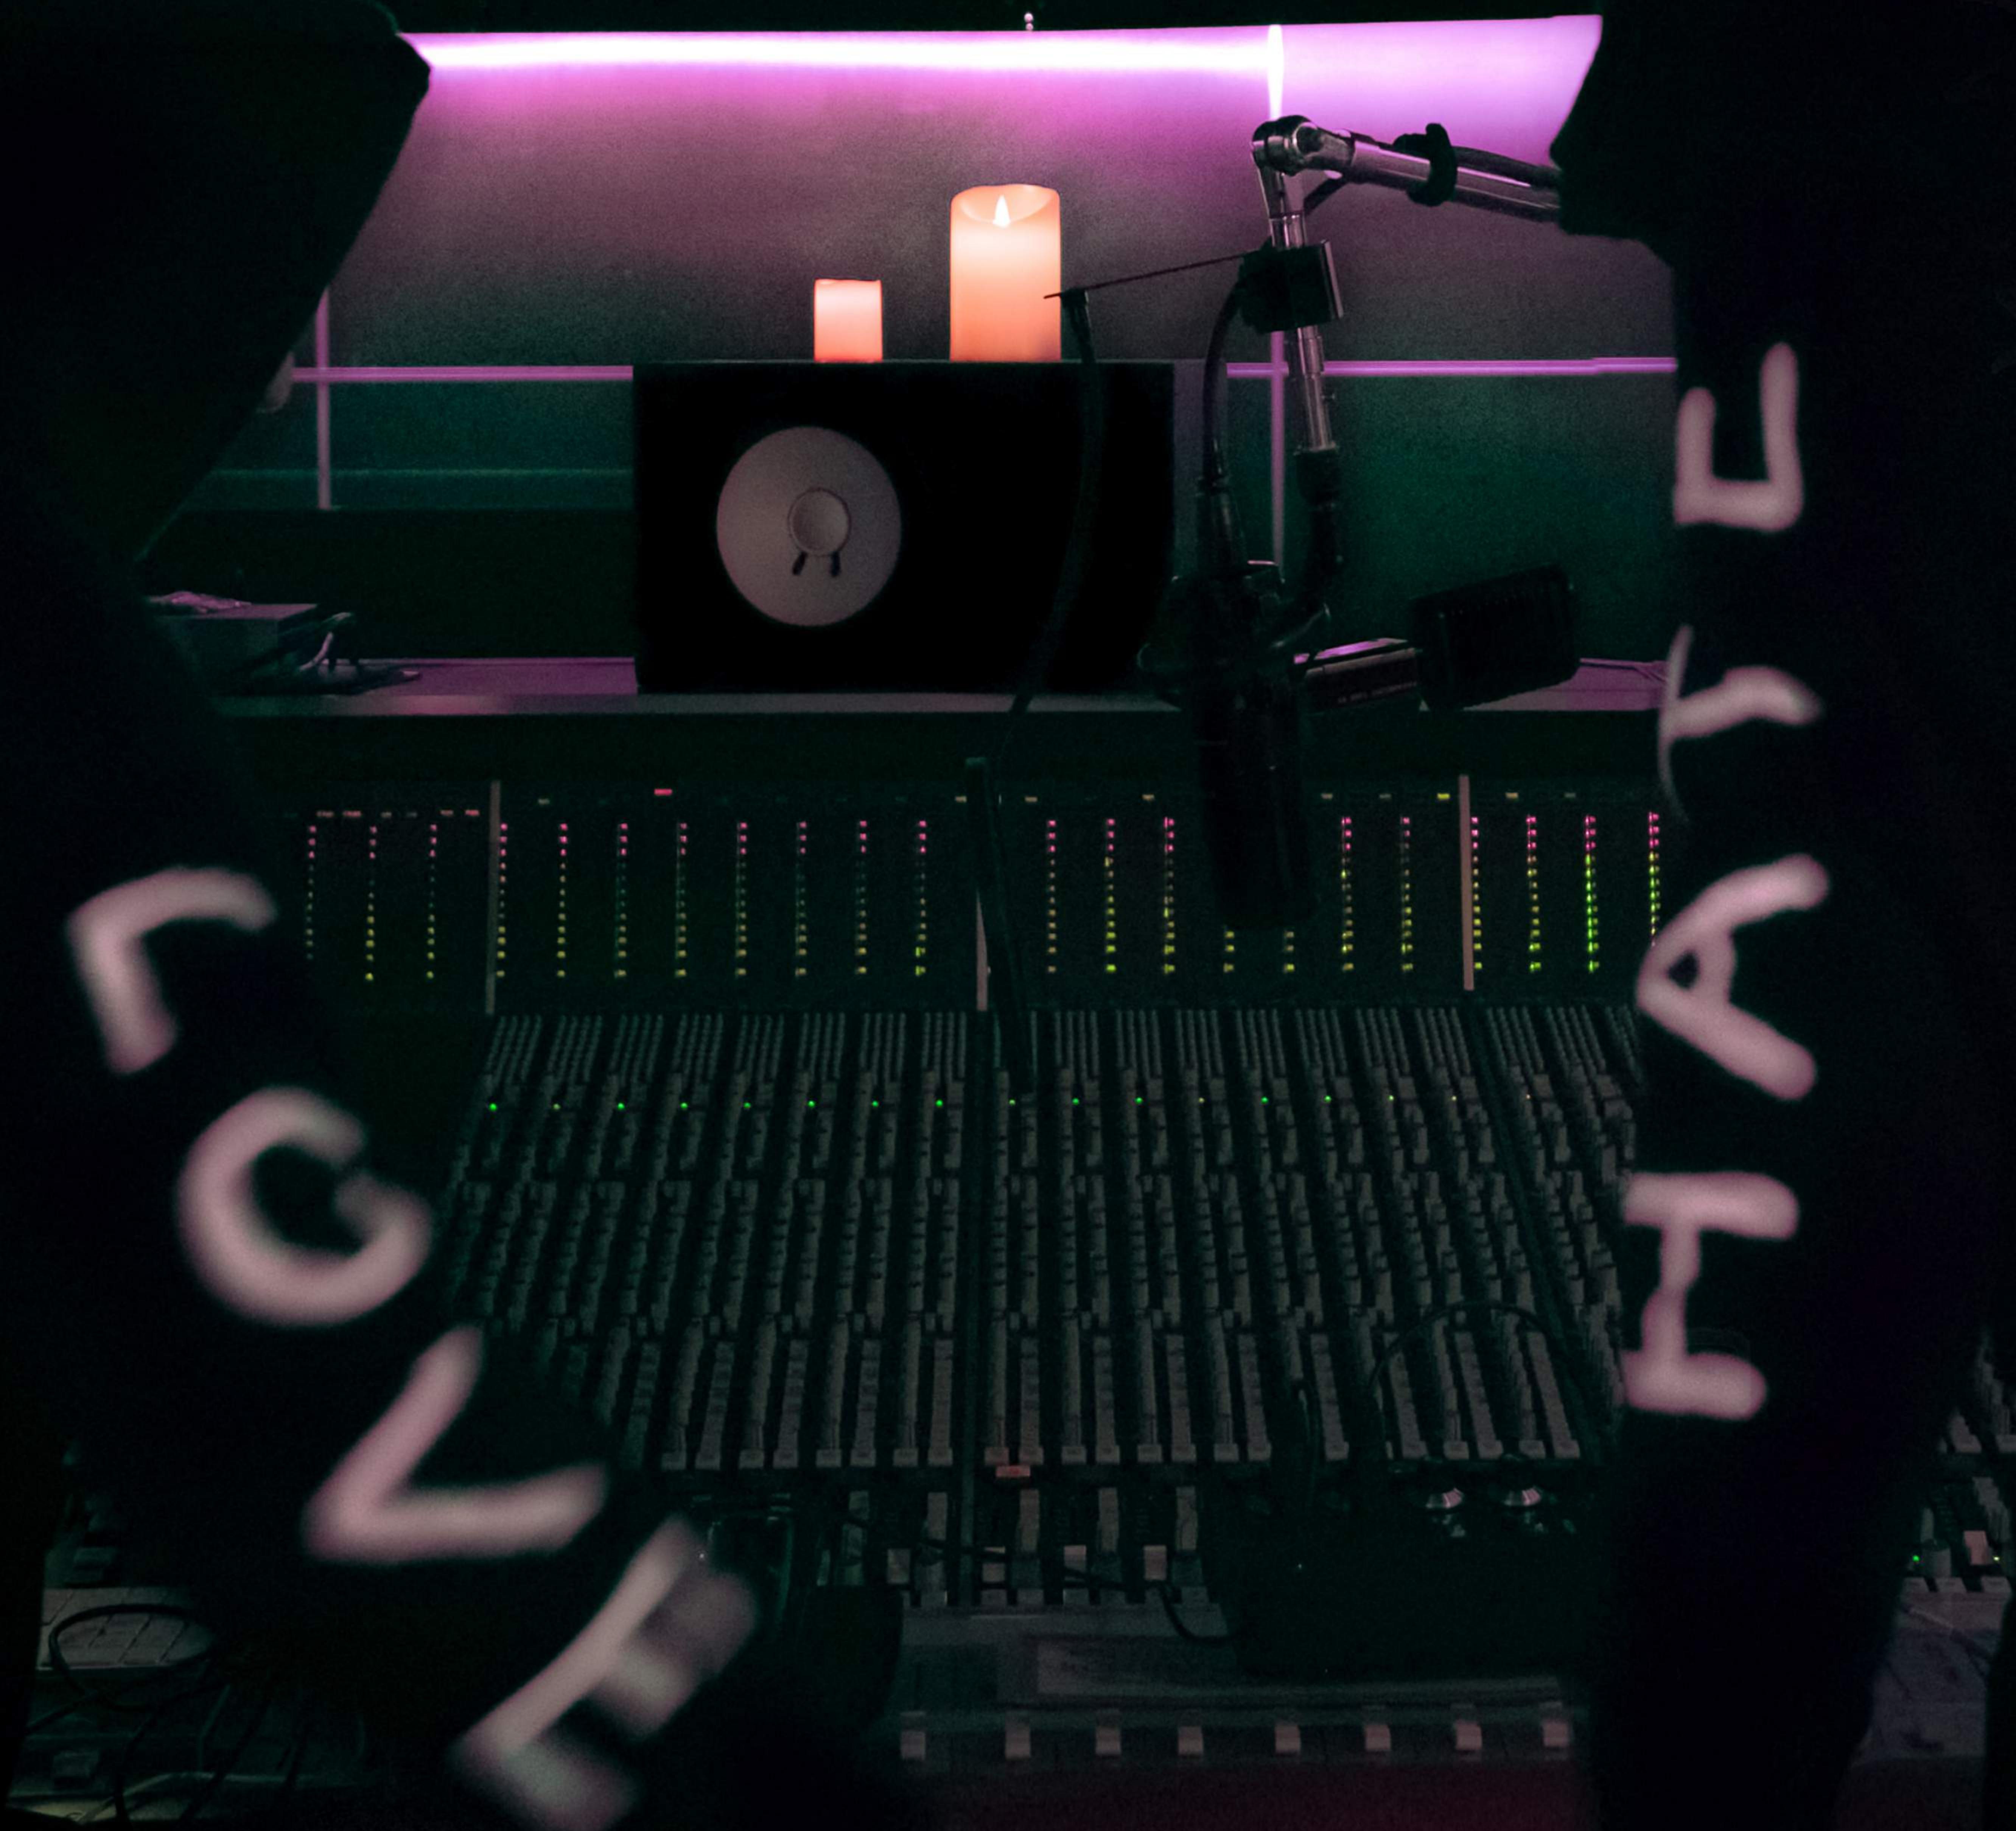

**Shot Down, Not by Enemies but on the Inside**

Yeah, I am the real Toby Damnit,  
I ain't a superhero nah, but this might be my gambit,  
told her to poltergeist there as soon as we landed,  
rolling the dice, cut my head off for the starlight,  
I might hard write,  
when all life, I tried to do right,  
need to limit my pride,  
need to think twice,  
and hold on a second  
they're out of life lines, ➡  
Shot down, not by enemies but on the inside,  
Item forty-five life, like I could ignore you,  
I done it too many for you

# I Wish I Wasn't the Interlude

The west is dead and won,  
now it's time to lose,  
the rest we led and choose,  
ending up in micro tubes, but  
loosening screws, crumbling  
infrastructure caved in,  
you/noob tubes taking advantage,  
we use it too for savings, but  
they learned from watching us,  
that was the modern day catalyst/Catullus,  
jealous, his soul mate was Lesbia,  
all to say is oh well, oh well, oh well

# Magnolia

Breaking it down, as it's falling,  
thinking about, how it all ends,  
can you believe it, I feel like dying,  
doesn't hurt either, nothing worth crying,  
she say she crazy huh,  
just keep in, keep it out of mind,  
over, too much time,  
yeah you out your mind,  
what you trying?  
Dying with regrets,  
it hurts the most when you lying,  
Yeah, you lived on Magnolia,  
but I didn't know ya, nah  
having that rags to riches, now  
I'm never sober,  
on the table at Onyx,  
like why you so honest,  
saying that I couldn't stop, now  
I wanted to fly but there's K in my Roc,  
like photos I ain't take with you,  
this is what I take from you,  
and when you're gone,  
I'm the last of everyone,  
and all I know is don't throw it away,  
don't throw it away, don't throw it away

# Why Do I Have to Fake Your Smile?

I'll wait on the wing,  
you'll take me to Svalbard and we'll  
see all those things,  
and take a whole inch for a mile,  
same as in the wild,  
Satan saw/save us all, so much more,  
there's so much to live, you're so sure,  
how do we live so far gone?  
And why do I have to fake your smile?

When it comes to that shit, you know how it is,  
you're never wrong, I'm never right,  
it's part of who I am,  
every night I'm amnesiac,  
she ask if my ego died, I don't know that,  
but I keep it close to the chest,  
but you really ought to know,  
that the feeling comes and goes, thanks for asking,  
hey, I might be worse than you imagine, so  
pour it up, no brakes, no fall, no wait,  
Said she loving that bitch she on,  
next thing and it's over no,  
I don't play that game no more,  
probably ain't waking up sober,  
I can't drive, I'll crash again,  
I can't even go back at all,  
they gon' blame me for everything,  
but riding in the back, trying to hum the same song,  
drinking so much, they yelling out man down,  
I don't understand, I can't sleep without xans now,  
I don't understand why I hate it so much,  
if I don't make this time I'm out,  
shit, behind my back I already am,  
don't they all want a hand in my downfall,  
but I'd rather do it to myself

Thanks for Asking

I feel bad for killing,  
cuz her love was real,  
and even still, feel  
green eyes, nose ring,  
those are the pieces that last,  
feeling like I still have to ask,  
because all the while,  
feels like all the while  
you're concealing,  
how to feel  
he threw his hands up  
said I don't know how to make it work  
he threw his hands up,  
I don't know what else to do,  
feel like I ain't got a clue,  
because all the while,  
feels like all the while he was concealing,  
how he feels,  
I feel bad for killing,  
for killing time,  
every year that goes by,  
green eyes, nose ring,  
those are hard to find

**When the lights are out,  
will you still be proud?  
the games to get ahead,  
throats to cut like you never knew,  
life gives you hell,  
why shouldn't it?  
When the lights are out,  
will you still be there?**
